

EVM AND VVPAT MANAGEMENT

	BU	CU	VVPAT
Requirement of FLC OK Machine (BU- 120%, CU - 120%, VVPAT-130%) (considering the proposed auxiliary PS)	13,534	13,534	14,663
Availability of FLC OK Machine	14,812	15,029	16,194
FLC failure (%)	0.54%	3.93%	3.53%
Defective Dispatch Date	04.02.2021		

We have in total 6 warehouses in our 5 sub-divisions. Sadar has its warehouse at 9th floor New admin building of collectorate. List of warehouse wise storage of FLC OK machines is stated below

Sl No	Name of Sub-Division	Total no of Polling Stations (including Auxiliary Polling Stations)	No of Machines Allocated for Training & Awareness			No of Machines Available for conduct of Poll			% of Availability of machines for conduct of Poll		
			BU	CU	VVPAT	BU	CU	VVPAT	BU	CU	VVPAT
1	Alipore (Sadar)	3887	380	380	380	4396	5091	5759	113	111	148
2	Barulpur	2544	250	250	250	3105	3022	3194	122	119	126
3	Canning	1411	140	140	140	1762	1753	1661	125	124	118
4	Diamond Harbour	2353	230	230	230	3118	2758	3149	133	117	134
5	Kakdwip	1084	100	100	100	1331	1305	1331	123	120	123
Total		11279	1100	1100	1100	13712	13929	15094	122	123	134

Out of which in zero randomization we segregated 1100 sets of CU/BU/VVPAT as training awareness machines. We have done dry run for 1st randomization in demo EMS software successfully. We are prepared for 1st randomisation as & when directed post declaration of election, which will be followed by segregation & transportation of AC specific EVMs to other sub-division warehouses. At present we have the task of sending training, awareness EVMs to different training venues catering PP training. Also @10 awareness EVM/VVPATs are placed at the custody of all BDOs in their temporary strong room for IEC purpose.

Reserve Management Plan: Advance identification of storage space & earmark A, B, C, D as per category & intimate to all contesting candidates in writing with acknowledgement, C & D type EVMs i.e. Defective un-pollled & Unused reserve will be stored in different Strong Rooms not in the vicinity of main Strong Room storing A (polled EVMs/VVPAT) & B (Defective polled EVMs/VVPATs) types. C & D type machines will move with sector officers on poll day in GPS enabled vehicles.

Media Management on EVMs: Media Management plan is thoroughly worked out. 1100 sets of Training/Awareness EVMs/VVPAT will be widely used for IEC & voters awareness campaign.

Adherence to SOP on EVM Management (Safety and Security): General instructions as laid down under EVM manual while Transportation & shifting of EVM like (a) Movement of EVMs & VVPATs through EVM Management system (EMS) (b) We use only containerized trucks or sealed trucks with proper locking arrangements. (c) We use GPS enabled vehicles for transportation. (d) All political parties are informed about opening, stocking & sealing of warehouses while shifting.

Apart of shifting & transportation other security protocol of storage of un-pollled EVMs like (a) storing EVMs/VVPAT in a strong-rooms in presence of representatives of National/ State recognised political parties. (b) Keep Training & awareness EVMs/VVPATs in separate strong rooms. (c) 1 section security & CCTV coverage 24X7.

Upcoming Activities:

Sl No	Activity	Purpose	Tentative Date	Responsibility
1	EVM Awareness	To spread awareness among voters regarding EVMs and especially VVPATs and clear all doubts regarding the authenticity and reliability of the Machines.	From 2 nd Week of February, 2021	SDO/BDO/RO
2	1st Randomization	AC Wise Allocation of Machines through EMS	After Declaration of Election Schedule	DEO
3	Segregation of Machines	AC wise Physical Segregation of Machines as per list of 1st Randomization	Right after 1 st Randomization	SDO/BDO/RO
4	Inter Warehouse Shifting of Machines	AC Wise Storage of Machines in the EVM/VVPAT Warehouses	Right After Segregation of Machines	SDO/BDO/RO
5	2nd randomization	Allocation of Machines to the Polling Stations and as Reserve	After Finalization of Candidates	SDO/BDO/RO
6	Commissioning of Machines	Preparing the Machines for conduct of Poll	P-7 to P-10 days	SDO/BDO/RO
7	Reintroduction of T&A machines	To increase the Reserve Stock of Machines	P-7 to P-10 days	SDO/BDO/RO
8	DC/RC	Distribution of Machines to the Polling Parties and Collection of Filled Machines at CC-RC	P-2 to P+1 Day	SDO/BDO/RO
9	Counting	Declaration of Result	C Day	SDO/BDO/RO
10	Storage of Post Poll Machines	AC Wise Storage of Filled Machines in AC Wise Strong Rooms inside the EVM/VVPAT Warehouses.	C+1 Day	SDO/BDO/RO
